

NEWS FROM YURA

Hello, dear brothers and sisters! I will share news from Warsaw and Ukraine.

1. In July, Lord provided the opportunity for American brothers and sisters to organize a Christian camp in Warsaw.

180 people from different cities and countries came to this event. There were people from France, Germany, Warsaw, Netherlands, Czech Republic, Belgium. All these people are Ukrainians, who save their lives from the war abroad. One sorrow unites all of us- war! Many of those who were present in the Christian camp survived the bombing, shelling, blockade in Mariupol. They spent many hours in bomb shelters or the subway, with small children. But many of them are worried about their relatives who stayed in Ukraine. The Lord blessed us with fellowship in this Christian camp, and thanks to the Eastern European Mission, we served the people. We brought 60 song books, Bibles, books "Lessons in character development." During this difficult time for all of us, it was a great Blessing to sing the Psalms together and praise God. I also taught classes for young people, and they liked the book "Lessons in Character Education" very much. We are thankful to God that we could be useful for so many people!

2. There is a house in Warsaw, where refugees from Ukraine live with kids (43 people). These people fled from war from different cities of Ukraine: Kiev, Kharkiv, Kramatorsk, Krasniy liman, Zaporozhye, Donetsk. People live in cramped conditions, 4-6 people in small rooms. They are provided with the minimum: bed linen, dishes, clothes, personal hygiene items. But, there was a lack of basic household appliances to make life easier. People have a limited food budget and need to cook more to save money. But they didn't have elementary things for kitchen: mixer, blender, toaster, etc. Thanks to your help and your prayers, we were able to purchase household appliances for this house. People are very grateful that despite such a difficult time, there are those who can help and support.

3. In the house for refugees there are a lot of children. Because of the situation they won't be able to go the sea. The weather in Warsaw is really hot, almost 35 degrees. Parents asked to buy a small inflatable swimming pool. We bought it and installed it in the yard. Kids were very happy!

4. We met a family from the Donetsk region who live in a hostel in Warsaw. We bought food for them and supported them. Vladimir and Tatyana are an elderly couple who had to leave their home, everything that they created in their lives. It is very difficult for them morally. In their hometown, there are constant shelling's and they do not know whether their housing will survive, and whether they will have anywhere to return to.

5. At the beginning of July 2022, Snezhana arrived in Warsaw with 4 children from Kremenchug. This young woman is a boarding school graduate and an orphan. Snezhana with her children and her husband did not want to leave Ukraine, because they did not understand where to go and to whom. But when shelling of Kremenchug became more frequent at the beginning of summer, and a shopping center was shelled during the day. Many people died. Snezhana and her husband decided to leave Kremenchug and go to Poland. Now they live in a refugee center, which is located in the building of a workshop of one of the factories in Warsaw. There are several rows of folding beds in the room, and about 100 people stay there. Snezhana, her husband and 4 children can only stay at this center until November 8, 2022. They are now looking for a place where to stay. We brought them food and fruits for children. They were surprised by our attention and care, since we did not know each other personally. Praise the Lord for a new family in our fellowship! Pray for these people that they would come to Christ. We continue to help people in Ukraine and Warsaw.
